

VASU SOLANKI

Delhi - +91 8448773504 - VasuSolanki1009@gmail.com - LinkedIn - GitHub - Portfolio

PROFESSIONAL SUMMARY

B.Tech graduate in Computer Science Engineering with hands-on experience in data analytics, data quality, and Python automation. Experienced in validating and cleansing banking and legal-recovery datasets, building ETL workflows, automating data processes. Strong analytical and business problem-solving skills with a focus on data accuracy, process improvement, and reliable business reporting.

SKILLS

Languages & Tools: Python (Pandas, OpenPyXL), SQL (Joins, CTEs, Window Functions), Advanced Microsoft Excel, Power BI, Machine Learning, Git/GitHub

Data Analytics & Reporting: Data Analysis, Data Validation, Data Cleansing, Data Quality, Dashboard Development, KPI Reporting, Data Visualization

ETL & Automation: ETL Pipelines, Workflow Automation, Reporting Automation, Schema Mapping, Process Improvement

EXPERIENCE

MIS Executive

Feb 2026 – Jul 2026

Credgenics

- Automated banking and legal data workflows using Python, reducing processing time from 3+ hours to under 2 minutes for large multi-sheet Excel datasets.
- Built reusable ETL workflows using Pandas and OpenPyXL for data cleansing, validation, schema mapping, and automated report generation.
- Performed data quality checks and standardized dates, data types, duplicate records, and business rules to ensure data accuracy and consistency.
- Collaborated with legal and operations teams to identify data issues, support reporting requirements, and deliver validated datasets for internal platforms.

Data Analyst Intern

Nov 2025 – Dec 2025

iCreatives Solutions

- Performed ETL operations by extracting recruitment data from Outlook, Excel attachments, HTML tables, and job portals.
- Cleaned, normalized, and transformed unstructured datasets into analysis-ready formats using Python.
- Applied text standardization using sentence embeddings, Agglomerative Clustering, and fuzzy matching techniques.
- Maintained centralized reporting datasets to support recruitment analytics, ensuring data consistency and analysis-ready records.

PROJECTS

Sleeping Disorders Analytics Dashboard

Healthcare — Python — Power BI

GitHub — Portfolio

- Cleaned and analyzed healthcare data for 374 participants using Python and Pandas, performing feature engineering and exploratory data analysis.
- Developed an interactive Power BI dashboard with KPIs to visualize sleep disorders, BMI, stress levels, heart rate, and lifestyle trends.

Customer Churn & Campaign Analytics Dashboard

Machine Learning — Python — Power BI

GitHub — Portfolio

- Processed and analyzed 2,000+ customer records using Python to identify churn trends and customer segments through feature engineering and EDA.
- Built interactive Power BI dashboards to visualize campaign performance, customer demographics, and purchasing behavior.

EDUCATION

I.T.S Engineering College

Aug 2022 – May 2026

Bachelor of Technology in Computer Science Engineering, Greater Noida, U.P.

Imarticus Learning

Mar 2025 – Oct 2025

Data Science and Analytics (Course), Connaught Place, Delhi
